WHY WORK WITH A BROKER?

Save Money:

Using a broker doesn't cost more than going directly with the insurance company. We always aim to find our clients the best quote for their insurance and maintain a competitive price.

Knowledge:

With our appointed professional team, we qualify to compare and recommend insurance coverage based on updated market service standards to make sure you, as a client, are getting the best that suit your needs from a broader portfolio of products in the market.

More choices:

Having access to the entire market gives us the capability to offer our clients more choices without the hassle of you contacting each insurer individually. Our goal is to ensure that our clients obtain the best terms, rates and services from the insurance companies.

Impartial advice:

Our client's interest comes first. We are not biased towards any individual insurance provider, meaning that you can trust in us to find you the most suitable policy.

No Gaps:

We advise clients on gaps in coverage, under insurance, non-insured risks, rates and terms of existing policies until we ensure that their insurance risk is fully mitigated and thus avoiding any serious financial losses. Also, we stay at the top of any changes in legislation to ensure our clients' business is covered for any unexpected legal occurrences.

Keep things simple:

When it comes to niche products or complex risks, it is our duty to keep the insurance terminology simple and well explained to the client.
